

Bookshelf Content Experience Platform

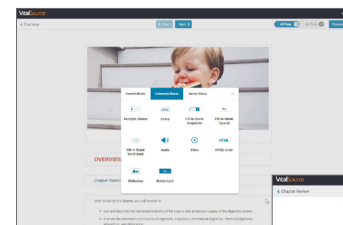

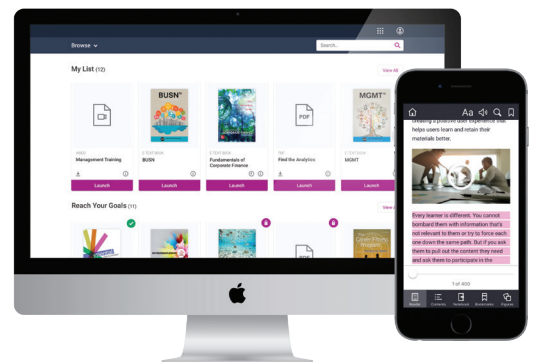

A Content Experience platform with tools that enable learning organizations to **create, curate, manage, and deploy** learning content to learners when they need it most—securely and consistently across devices and across borders.

CREATE RICH INTERACTIVE CONTENT

Content owners save time and money. Learners become more engaged and everyone succeeds.

Flexible and Intuitive

- Enhanced content available on any device, including responsive outputs in standards like EPUB3.
- Interactive content such as multimedia and assessments.
- Built for simple development and efficient delivery—free from the hassle of third parties.
- Build, enhance, and revise content via easy-to-use editing screens—no programming knowledge required.
- Customization support specific to your content, design, and instructional needs.

Embed multi-media for a more engaging learner experience.

Multiple choice, fill-in-the-blank, and essay assessments to gauge comprehension.
