

Protect Your Intellectual Property

Your content is your business. Do you know if it's safe?

Know the risks for each of the five steps for protecting your content.

1

Delivering Content: During the transfer process, you are at risk for lost or vulnerable content.

2

Content Storage: Content that is not properly protected while stored can be vulnerable to breaches.

Learn More: [Page 7 of Content Security: A Guide for Evaluating Best Practices](#)

3

Digital Rights Management: Without proper DRM, content protection and content access may not meet the publisher's requirements, resulting in loss of revenue and putting intellectual property at risk.

Learn More: [Page 8 of Content Security: A Guide for Evaluating Best Practices](#)

4

Monitoring & Alerts: Monitoring and alert systems need to identify and address new threats to minimize exposure.

Learn More: [Page 10 of Content Security: A Guide for Evaluating Best Practices](#)

5

External Validation: The vendor could have gaps in the implementation of their security and antipiracy programs.
